

# Villa Eremo

## Well-being made up of green, stone and water

### Elena Battellino

**THEME** rehabilitation of the area and finding new functions for both the historic villa and garden.

**AREA** Lecco, Villa Eremo

**OBJECTIVE** finding new functions for the partly abandoned area of Villa dell'Eremo. Building a usable and flexible space by demolishing the architectural barriers and designing a garden for all users (for handicapped people as well).

**PROJECT** survey of material, physical and pathological layers. Collection of quantitative and qualitative information (environmental conditions, risks, landscape and historic characters). Designing a therapeutic garden for people suffering from Parkinson disease.

Exhibiting a model of therapeutic garden for people suffering from Parkinson disease during the 4th Edition of a Contest called "Concorso di allestimento paesaggistico - Franciacorta in fiore 2007".

Fourth Edition of the Contest "Concorso allestimento paesaggistico Franciacorta in fiore"

Cazzago San Martino, 18-19-20 May 2007

**THEME** "The therapeutic garden-a new version of the green" ("Il giardino terapeutico-una nuova edizione del verde").

Second prize.
