

Conservation project of the historic garden of Villa Borromeo Visconti Litta at Lainate

Beba Bordogna – Valeria Ripa

THEME conservation of the historic garden

AREA Lainate (Milan), garden of Villa Borromeo Visconti Litta, located in the historic centre and around the stately mansion.

OBJECTIVE preserving the historic garden and rearranging the spaces for the general public's recreational activities and for organizing events.

PROJECT cognitive investigation (census of vegetal elements, geometrical and material survey), analysis of the conditions of the vegetal heritage and of the architectural artefacts as well as of their conservation and management. Moreover: designing the location and distribution of the spaces to be used for organizing events and recreational activities attracting a large number of people.
